**PLEASE READ BEFORE SIGNING**

I hereby certify that I have read and examined this application and know the same to be true and correct. It is the responsibility of the permittee or the person doing the work to notify the Building Division for inspections at least twenty-four (24) hours in advance, and insure that the required inspections are made. **IBC 105.5 Expiration:** *Every permit issued shall become invalid unless the work on site authorized by such permit is commenced within 180 days after its issuance, or if the work authorized on the site by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced. The building official is authorized to grant, in writing, one or more extensions of time, for periods not more than 180 days each. The extension shall be requested in writing and justifiable cause demonstrated.* This permit may be revoked if the work is not in conformance with all laws, rules and regulations of the City of Enumclaw. The duty to insure code conformance rests with the builder, developer, or the homeowner, not the City of Enumclaw. The approval of the construction plans and inspections does not guarantee that all the provisions of the applicable codes have been met. All documents submitted to the City become public record and are available for public inspection and copying. I herein agree to reimburse the City for the cost of professional engineers and other consultants hired by the City to review and inspect this proposal and any other related permits. *I represent the owner or contractor as signified above and am acting with the owner's/contractor's full knowledge or consent.*

**I hereby request that the Building Division review be done parallel with other city department reviews. I understand that review by other departments and/ or changes resulting from these reviews may result in increased or additional charges or fees.**

**Owner or Owner's Agent Signature:** \_\_\_\_\_

**Please Print Your Name:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**Gas Load Input (found on a plate affixed to the appliance, or check with your contractor)  
Enter the total number of appliances and total BTU input. (necessary for proper meter and service size)**
